

HEALTH BENEFIT NONDISCRIMINATION RULES ON HOLD

In our Fall 2010 Newsletter, we reported that under the new Health Care law, very significant nondiscrimination rules were to become applicable to insured health arrangements in 2011. This would have required major changes in almost every business's health insurance arrangements. However, at the end of 2010, the IRS announced that the new nondiscrimination law left too many unanswered questions and therefore was being put on hold. If and when these new rules take effect, we will let you know. ■
